Māhēśbara Sūtra (The Logical Clue of Phonology):

MY GIVEN INTRODUCTORY NAME:

Magnificent Phonological Clue of Íśa {∞ (Māhēśbara Sūtra)}.

(FOR THE GREATEST BENEFIT TO HUMANKIND IN THE LONG RUN)

# THE SUBLIMEEGO (PRAJÑĀM)

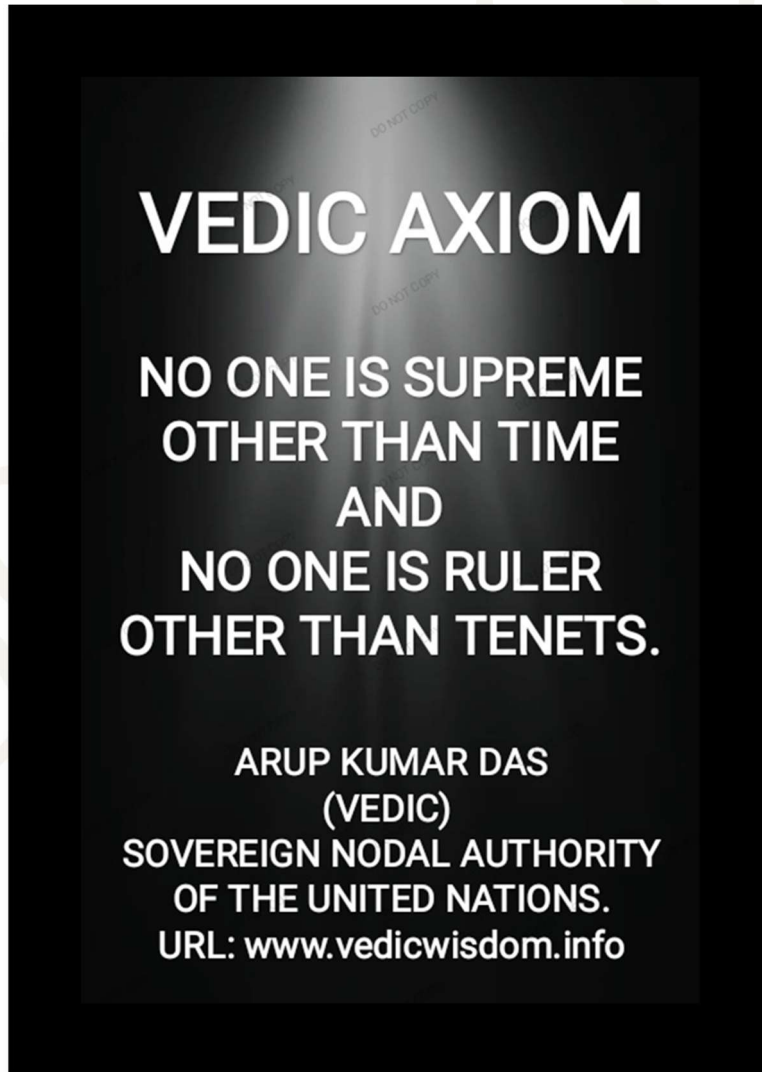

## PREAMBLE:

The Bēda has been written by the counterproductive ability of the scientific and philosophical unitarity of mind by Māhēśbara Sūtra, illustrating incomparable wealth of the universe. The Bēda is mainly constituted by an axiom, axiomatic tenets, time dimension (Íṣa) and the law of atomic energy of time dimension, duly analysed by mathematics.

## DEFINITION OF AXIOM:

The Axiom is insightful intellectual code (System of words, figures or symbols used to represent ancient secret manuals) of codex (Ancient manuscript) of the transposable reciprocity of science and science oriented philosophy. The axiom appears and abbreviates itself by the wisdom of the relation amid creation and its cause, as rationally irrefutable conclusion of the scholarly discreet ability.

## THE VEDIC AXIOM:

**(FOR THE GREATEST BENEFIT TO HUMANKIND IN THE LONG RUN)**

# THE SUBLIMEEGO (PRAJÑĀM)

## DEFINITION OF TENET:

The Axiom by the significance of its origin, give rise to tenet(s) while tenet(s) abbreviates itself as the **keynote** of the central ruling policy of moral values, intend for the greatest benefit to humankind, consequent upon attainment of the wisdom of Time Dimension. This is known in vedic academic discipline and vedic science and science oriented philosophy (Yōga) as '**dārma** (*Dharma*).

## REFERENCE OF THE VEDIC TENET(S): '**dārma** AS FOLLOWS:

# THE SUBLIMEEGO (PRAJÑĀM)

DEFINITION OF THE SUBLIMEEGO {Sublime-ego (Prajñām)}:

The Psycho-faculty that rationally plays both the steering role of the intellection and intuition, by parallel processing, until come to an irrefutable conclusion is called sublimeego (Prajñām). This inimitable ability is called autodidact ability that is **Intellect**. Reference: 48/1 of 3<sup>rd</sup> Mundak of the Mundak Upanishad.

WHERE:

Science is the logical ability of intellection of the **ameliorated superego** namely **sublimeego** and philosophy is the intuitive quality of imagination of superego.

## THE DORMANT STATE OF SUPEREGO OF THE COMATOSE SUBLIMEEGO:

The dormant state of superego of the comatose sublimeego has been identified first by Bēda by the given name of **Abacētan** (Sub-conscious), compared to ID. Reference: 10-12 Mandukya Upanishad. To the extent of my research; this part of the brain originates strong impulse of hunger, thirst, sex and sleep besides strong impulse of disliking training and/or education. This part of the brain originates strong impulse of 'struggle for existence', which is every so often consequences submissive or hyper attitude to fulfill desire, in spite of basically innocent.

## THE EVOLVING STATE OF SUPEREGO OF THE DORMANT SUBLIMEEGO:

The evolving state of superego of the dormant sublimeego has been identified first by Bēda by the given name of **Upacētan** (Sub-conscientious), compared to Ego. Reference: 7-9 Mandukya Upanishad. To the extent of my research; this part of the brain originates strong impulse of imagination that generates an abstract idea of supernatural being, consequential to fiction and/or religion. This part of the brain originates strong impulse of 'struggle for supremacy', besides ego-mania or egocentricity, which is prone to harmful acts even in spite of the cognizance.

## THE AMELIORATED DYNAMIC STATE OF SUPEREGO:

The 'ameliorated dynamic state of superego' has been identified first by Bēda by the given name of **Cētan** (Conscientious) compared to **Abacētan** (Sub-conscious) and **Upacētan** (Sub-conscientious). This part of the brain mediates between Abacētan (Sub-conscious) and Upacētan (Sub-conscientious) by due application of eclecticism and justice. Reference: 4-6 Mandukya Upanishad.

## THE SUBLIMEEGO:

The sublimeego has been first identified by Bēda by the given name of **Prajñām** and dynamism of **awakened sublimeego** has been titled by Bēda as **Caitan'ya** {Activism of the Index-of-Balance (Moral Rectitude) of that locus of the  $\bar{O}\bar{M}$ }. The sublimeego is intrinsically the soul and the sole spirit of the superego, as the scientific and philosophical unitarity of mind. Reference: 1-3 Mandukya Upanishad.

## INDEX-OF-BALANCE {MORAL RIGHTEOUSNESS (LOGIC)}:

The autodidact ability of the continuous interactive process of scientific and philosophical reasoning, until come to an end of irrefutable conclusion, which is best known as the moral rectitude (logic), consequential to attainment of the wisdom of that locus of the ubiquitous  $\bar{O}\bar{M}$ , through transcendental meditation of equality with dynamic Time Dimension. Reference: 68-70/1/3 of Katha Upanishad.

## THE PSYCHOMETRIC TEST OF THE SUBLIMEEGO:

1. The intellectual ability of the dual discreetly and irrefutably constant logic of both the endless extents ( $\infty$ ) of tininess and vastness of entirety, stand in with the factor that energy neither created, not either can be destroyed nor can be divided, under the domain of the ubiquity of the wholeness (Íŝa).
2. The intellectual ability of the mathematical method of the cross referential division followed by addition of all divisible cardinal numbers, imparting infinite spin ratio of the variant of the ubiquitously Universal Constant.
3. The intellectual ability of the connotative value of the indivisibility of the neutral point {Advaita that is analogue ( $0 \equiv 0^x$ ) as the wholeness as both subset and superset. amongst cardinal numbers, in consistency with the said irrefutable dual logic, which as a result appears in Decimal Method (Math).

## VEDIC REFERENCE OF THE PSYCHOMETRICS OF THE SUBLIMEEGO:

Hymn: 331/1<sup>st</sup> Brahaman/5<sup>th</sup> Chapter of the Vrihadaranyak Upanishad and Hymn: 1 of the Isa Upanishad of 'The Upanishads', published by Haraf Prakashani, A-126 College Street Market, Calcutta (Kolkata): 700007. Dated: January 1998, witnessing all my research articles and ordinances based on Bēda and Vedic Tenets.

## VEDIC SIGN OF THE SUBLIMEEGO (Prajñām):

## VEDIC ORIGIN:

Ōm̄ – Tat̄ – Sat̄

## STATEMENT:

The Intellectual Heritage of Vedic Era and Post Vedic Era of the then Vedic Land of Bharat are not the same traditionalism. The anciently intellectual heritage of Bēda was immensely intervened, distorted and destroyed, together with morals of Vedic disciples of ethically ethnic group (Aryans by Vedic Tenets), in addition to immensely misinterpretation of Bēda; instrumental to irreparable ignorance of the Magnificent Phonological Clue of Íŝa (Māhēśbara Sūtra) that is the clue of Vedic Axiom and Axiomatic Tenets. The irreparable ignorance of the said Vedic Phonology resulted to inhuman act of burning alive widows and inhuman act of human sacrifices, besides **violence** and **war**, in excuses of bias Religious Rights.

**(FOR THE GREATEST BENEFIT TO HUMANKIND IN THE LONG RUN)**

# THE SUBLIMEEGO (PRAJÑĀM)

The Magnificent Phonological Clue of Íṣa (Māhēśbara Sūtra) is predominantly one and only clue for decipherment of Bēda, which was wisely and prudently contributed by Maharshi Panini as “its all encompasses Bēda” as mentioned at the end of **Sūtra**. The said phonology was fortunately exempted from invasions, for secrecy and unintelligible by sub-conscientious (Upacētan) or conscientious (Cētan) mind; not in the state of awaked sublimeego (Caitan’ya); systematically by the Vedic Yoga, to understand the irrefutable rationality of intellection. The said phonology was taught to me by my Acharya with trust, under Vedic yoga and Oath as Guru Parampara (Vedic traditionalism), for Restoration of Bēda.

The Mundak Upanishad deals with functional parameter of the Psycho-Faculty of the Sublimeego {Sublime-ego (Prajñām)} to the extent of dynamism of awoke sublimeego (Caitan’ya) while Mandukya Upanishad deals with Psychology. The name of “**Mundak**” came by the functional parameter of the Psycho-Faculty of the Sublimeego, based on Anthropology, in consistency with Psychology and the name of “**Mandukya**” came by the wide range of Psychology, based on Zoology.

Moral righteousness is the sole reflex of Sublimeego {Sublime-ego (Prajñām)} as the result of awoke sublimeego, whereby moral righteousness is qualitatively called humanity. Humanity is the ultimate condition of being human as human beings as a whole, under the domain of anthropology. Reference: Mundak Upanishad.

The Mandukya Upanishad leads to Aitareya Upanishad. All Upanishads are the then interlinked research papers of Vedic Era, which were cryptically written by the application of magnificent phonological clue of Íṣa (Māhēśbara Sūtra). There is no route or mode to get wisdom of the activism of the index-of-balance of that locus of the ŌM, except amelioration or otherwise complete evolution of the Superego, intend for the attainment of the state of awakened Sublimeego. Reference: 41/3 of the Svetasvatara Upanishad.

The necessity of amelioration of psyche to the extent of Awaked Sublimeego is to provide conscientious services to civilization, as rationally Sovereign through unite and meritocratic policy; holding axiomatic tenets; as distinctly different to monarchical autocracy or autocratic autonomy of majority rule of inert intellect or despotic roguish non-ethnic populace of Sub-conscientious mind (Upacētan).

Reference: 48/1 of 3<sup>rd</sup> Mundak of the Mundak Upanishad of ‘The Upanishads’, published by Haraf Prakashani, A-126 College Street Market, Calcutta (Kolkata): 700007.

The research oriented name of **Prajñām** has been given by me as **Sublimeego**. Prajñām that is the sublimely dynamic state of conscience (Caitan’ya) has been well-defined by Bēda as the “Sixth Sense”. Reference: 1/164/46 of Rick Bēda.

**(FOR THE GREATEST BENEFIT TO HUMANKIND IN THE LONG RUN)**

# THE SUBLIMEEGO (PRAJÑĀM)

## EXAMPLES OF THE PSYCHOMETRIC REFLEX OF THE SUBLIMEEGO:

The Vedic Tenets are the patent examples of the psychometric reflexes of the Sublimeego (Prajñām). The Prajñām of respective tenets are called Brāhamana (*Brahmin*) as wisely sole of the Ameliorated Superego.

Reference: 21/2 of 1<sup>st</sup> Mundak and 48/1 of 3<sup>rd</sup> Mundak of the Mundak Upanishad of 'The Upanishads', published by Haraf Prakashani, A-126 College Street Market, Kolkata, unitedly shows Brāhamana (*Brahmin*).

## Conclusive Statement:

With reference to page number 6; **Logic** is the boundary line that is line of control between Human Psyche (Wise also wisely noble) and Psyche of rest of the sentient species (Unwise also unwisely demonic).

## WHENCE:

Both 'wise also wisely noble' and 'unwise also unwisely demonic' cannot cross over the aforesaid boundary line, due to Logical Intervention. Logic is the inert quality of intellect, which is functionally act as mandatory ruling of Psyche as **Psycho-law** called **conscience**, by awakening of the Sublimeego (Prajñām). That is the specific cause of the practice of Yōga (Science oriented philosophy) towards Index-of-Balance.

## WHEREBY:

Human Duties are obligated by conscience and conscience remains all over again obligated by logic (moral righteousness). The conscience without logic (moral righteousness) develops no sense at all.

## THEREBY:

So long conscientious Human Duties will remain active until then legitimacy of Human Rights will remain alive, through logical detection of the worth of the indivisible Zero (0) as wholeness, in consistency with the aforesaid Psychometric Test of the Sublimeego (Prajñām) vide page number 8.

## OR ELSE:

Cognizable offences, breach of trust and all such malefactors will be in possession of Human Rights, by the excuses of Human Beings (Not human beings by the Psycho-law of unwise also unwisely demonic psyche). Logic is the hidden cause behind all the differences of Justice/Injustice, Peace/Violence, Defence/Offence, Spirit/Fear, Patriotism/Terrorism, Sanctity/Sanctimony, Laureate/Learned, Benevolence/Malevolence, Thoughtfulness/Thoughtlessness compared to Natural Intellect/Artificial Intelligence etcetera etc.

## FURTHERMORE:

Logically the sense of "Promotion" vide United Nations Resolution of the A/RES/73/329 evidently specifies that there is the "need of conscience", noticeably since 2nd world war.

## ENQUIRING:

What is the **logic** of keeping and/or holding in possession nuclear weapons of 'mass homicide' when nuclear weapons cannot distinguish between Innocence and Offence !? !? !? !? !? !? !? !? !? !? !? !? !? !? !? !?

EPITOMIZING THE SUBLIMEST IQ NAMELY SIXTH SENSE:

1. Logic is the soul of axiom and axiomatic tenets as sublimest IQ of harmoniously peaceful civilization.
2. Logic is the soul of conscience by the quality of being wisely careful as sublimest IQ of consequences.
3. The act or process of understanding; the irrefutable logic of ubiquity towards both the endless ( $\infty$ ) extent of tiniest and vast is the assessment of sublimest intelligence quotient (IQ), which has been continued since vedic era with the connotation of the **indivisible Zero (0)** besides decimal method and absolute value ( $\bullet = 0 = \infty$ ) of energy exchange as the Sublimest IQ of the universal cycle of energy.
4. Ubiquity  $\xleftrightarrow{\text{Logic}}$  magnitude of time per unit of energy = magnitude of energy per unit of time that is to say that "magnitude of time is equivalent to magnitude of energy and vice versa".

End Note:

**Wisdom** is the qualitative state of being wisely understanding '**Universal Constant**' by the sublimest intelligence quotient (IQ) of logic, whence the axiom and axiomatic tenets are the result of 'wisdom' led by Prajñām that is 'Sublimest IQ of logic' namely 'Sixth Sense'. This is the distinct difference between wisdom and knowledge.
